

Rates and Terms: December 2017

I believe in being open and transparent when it comes to pricing. As well as delivering a high quality service I think it is vital to know what the job will cost and be well informed about the extra charges in advance. I have given a breakdown of the main costs involved but as always, each project will require tailoring depending on your requirements

My Rates

To keep it simple, I charge the same for my time in all music, video and photography work. The prices are in terms of half days (up to 4 hours) and full days (over 4 Hours)

Half day	£200
Full day	£350

Travel

I will travel within Berkshire and London at no extra cost however I will charge 40p per mile for travel outside of these areas. If it is more cost effective to travel by public transport I will do this providing I can carry the kit!

Equipment/Studio Hire

Depending on your needs will depend on this. Outdoor shooting is always free but unpredictable. If you to hire a studio or space this will be at your cost. Any specialist equipment or props will also be chargeable. I will try my best to find appropriate spaces/kit/props at minimal rates.

Post Production

In our initial consultation I will be open about estimated post production costs, it is always worth keeping this in mind when setting a budget. Here are a few examples.

Audio mixing a live performance - 3 minute song anything up to 2 hours
Half day photography shoot - basic edits 1-4 hours depending on number of pictures
Half day video shoot - 1-2 full days for basic edit

Alterations

In the quote, I will always factor in the time needed for alterations. After presenting you with the initial draft I will make the relevant changes from your feedback. After the first alterations have been made, any errors occurred on my behalf would be at my cost. If you require additional alterations which were not agreed, they would be at your cost.
